*Urtica dioica*, often called common nettle, stinging nettle (although not all plants of this species sting) or nettle leaf, is a herbaceous perennial flowering plant in the family Urticaceae. Originally native to Europe, much of temperate Asia and western North Africa, it is now found worldwide. The species is divided into six subspecies, five of which have many hollow stinging hairs called ...

As planned, following the on-going development of our technology tools for the education sector, the cLc has been finally closed. The cLc platform was at the forefront of educational development for many years and multiple schools and organisations used it as a launch pad for transforming education through the use of the Internet.. We continue to be the education sectorâ€™s essential partner ...
