Teaching Inference Inference is a complex skill and is included in many other types of reading strategies. Good readers need to be able to coordinate many strategies at once. It is important to remember that this strategy should not be taught in isolation. National Reading Panel report (2000), states that learning

The Nine Nations of North America is a 1981 book by Joel Garreau, in which the author suggests that North America can be divided into nine nations, which have distinctive economic and cultural features. He also argues that conventional national and state borders are largely artificial and irrelevant, and that his "nations" provide a more accurate way of understanding the true nature of North ...

The Lexile Framework for Reading is an educational tool that uses a measure called a Lexile to match readers with books, articles and other leveled reading resources. Readers and books are assigned a score on the Lexile scale, in which lower scores reflect easier readability for books and lower reading ability for readers.
