Silent Spring is an environmental science book by Rachel Carson. The book was published on September 27, 1962, documenting the adverse environmental effects caused by the indiscriminate use of pesticides. Carson accused the chemical industry of spreading disinformation, and public officials of accepting the industry's marketing claims unquestioningly. ...

How Children Succeed introduces us to a new generation of researchers and educators who, for the first time, are using the tools of science to peel back the mysteries of character. Through their stories—and the stories of the children they are trying to help—Tough traces the links between childhood stress and life success.
