Purple Martin Bird House Plans. Purple martins nest in colonies. Over 1 million people put up martin houses, but many fail to attract any birds because of poor placement.

Purple Martin Bird House Plans One-Multiple Levels

Hummingbirds typically nest in trees or shrubs, and use plant materials, mosses, lichens, and spider webs to construct their nests. Their nests are very hard to find because they are typically tiny, located well off the ground, and are very camouflaged to protect from predators.

Pollinators: How You Can Help

A lek is an aggregation of male animals gathered to engage in competitive displays, lekking, to entice visiting females which are surveying prospective partners for copulation. Leks are commonly formed before or during the breeding season. A lekking species is characterised by male displays, strong female mate choice, and the conferring of indirect benefits to males.
