AS 1684.4-2010 Residential timber-framed construction_non

The housing and residential sector demands buildings that are energy efficient, rapid to construct and of high quality. Steel and composite construction has achieved a significant market share in the medium-rise residential sector in the UK because of the need to build quickly, particularly in urban projects. The construction process is improved, is faster and disturbance is reduced through ...

Industrial Buildings. Newcom Mining LLC is a pioneer in introducing light gauge steel technology (LGSF) for industrial buildings in Mongolia, where the climate conditions are extreme and the rough terrain provides many challenges for the construction market.

Vertex 3D CAD Software for Steel Framing Construction

Framing, in construction, is the fitting together of pieces to give a structure support and shape. Framing materials are usually wood, engineered wood, or structural steel. The alternative to framed construction is generally called mass wall construction, where horizontal layers of stacked materials such as log building, masonry, rammed earth, adobe, etc. are used without framing.

Structural Design for Residential Construction

Most forms of steel framing used in UK construction may be grouped as follows: Braced frames or 'simple' construction, in which the beams and columns are designed to resist vertical loads only. The connections are designed as nominally pinned.; Rigid or continuous frames, in which the framed structure is designed so that the connections between the members are moment-resisting.

The SAISC provides technical support to its members. With over 60 years worth of local, Southern African project case studies and access to experienced and qualified individuals, the SAISC is well placed to assist with technical queries relating to Steel Construction and Structural Engineering.

SAISC – Southern African Institute of Steel Construction

A house is a building that functions as a home. They can range from simple dwellings such as rudimentary huts of nomadic tribes and the improvised shacks in shantytowns to complex, fixed structures of wood, brick, concrete or other materials containing plumbing, ventilation, and electrical systems. Houses use a range of different roofing systems to keep precipitation such as rain from getting ...
