Using Data to Improve Schools: What's Working is an easy-to-read guide to using data to drive school improvement. School system leaders and their staffs can learn from this book how to build a districtwide culture of inquiry that values the use of data for sound decision-making. School board members, parents and community members interested in helping improve schools will find tools for their work as well in this guide.

Using - AASA | The School Superintendents Association

samples of elementary and secondary school students to relate school resources such as per-pupil expenditures to student academic achievement and other outcomes. The study found that, on average, when student background was taken into account, school resources were not significantly associated with student outcomes.
