

scientific and technical acronyms pdf

Scientific terminology is the part of the language that is used by scientists in the context of their professional activities. While studying nature, scientists often encounter or create new material or immaterial objects and concepts and are compelled to name them. Many of those names are known only to professionals. However, due to popularization of science, they gradually become part of ...

An acronym is a word or name formed as an abbreviation from the initial components of a phrase or a word, usually individual letters (as in NATO or laser) and sometimes syllables (as in Benelux).. There are no universal standards for the multiple names for such abbreviations or for their orthographic styling. In English and most other languages, such abbreviations historically had limited use ...
